Subject: Microsoft Settlement

I have reviewed the provisions of the agreement between the Justice Department and Microsoft Corp. I believe the provisions are reasonably fair and that Microsoft is giving adequate accommodations to their competitors. It is my opinion this case has been carried on long enough and should be settled, in order that all parties involved can move on with their respective programs. It is also my opinion that a final settlement would be and is in the absolute best interest of the entire country.

Thank you for the opportunity to comment on the settlement of this case.

Sincerely,

Louis L. Studer
